

BG Brake Service

**Fights Corrosion & Contaminants!
Protects Against Brake Failure!**

BG Brake Service:

- *Removes contaminated fluid from the entire hydraulic system*
- *Replaces the old fluid with specially formulated brake fluid, which is proven to prevent corrosion*
- *Inspects the brake system for leaks, master cylinder corrosion, worn pneumatic parts, harmful varnish buildup, broken or rusted bleeder valves, worn rotors and drums and air in the brake lines*

BG Brake Service should be performed every 30,000 miles/50,000 km to maintain brake system safety and performance.

Complete Service Package

Brake Service \$ 159

BG Brake Service helps prevent unexpected failure on your vehicle's most important safety feature

Brake fluid before (left) and after (right) service.

Harmful deposits and varnish buildup—resulting from worn-out, oxidized brake fluid—are apparent on this brake master cylinder piston assembly.

**Lifetime
BG Protection Plan®**

With a BG Brake Service, your vehicle may be eligible for Lifetime BG Protection Plan® coverage up to \$4,000. Ask your Service Advisor for details.
