

BG Drive Line Service

**Quieter, Smoother Operation!
Protects Expensive Components!**

BG Drive Line Service:

- *Uses specialized equipment to remove old, contaminated lubricant and debris*
- *Installs a specially-formulated high quality gear lubricant*
- *Extends operational life*
- *Keeps critical components clean under extreme temperature and load conditions*

BG Drive Line Service should be performed every 30,000 miles / 50,000 km to prevent lubricant breakdown and protect critical gear components!

**Complete
Service Package**

Drive line \$ 159

BG Drive Line Service protects critical gear components!

Heavy deposits reduce equipment life.

BG Drive Line Service keeps bearings and gears free of varnish and deposits.

Lubricant breakdown can severely damage critical gear components!

**Lifetime
BG Protection Plan®**
